Enclosed Are Illustrations of

ENCLOSED are illustrations of "*Mantel Pieces of the Better Kind*," some of which are reproductions of old ones, while others are specially designed in various periods.

As a designer, I have for many years collected data both in America and abroad on museum pieces, mantels, doorways and wood paneling found in old houses.

Realizing the need of good mantel pieces at a reasonable cost, I am sending out my Brochure to make you acquainted with my designs.

As each mantel is specially made, I am prepared to make alterations to meet any architectural requirements. The plinth blocks or bases can be raised or lowered, or the mantels can be made to fit around the breast of the fireplace; also any mantel that is considered too ornate or too plain can be altered to suit the individual taste.
